MEMORANDUM FOR: General Counsel

FROM: John F. Blake
Deputy Director for Administration

SUBJECT: Guidelines for Employee/Contractor
Relationships

Tony:

1. You will recall that, as a result of the Director's strong reaction and the dismissal of two employees for using poor judgment in relationships with Agency contractors, the then DDCI, Mr. Knoche, directed that a number of policy pronouncements be made with respect to such relationships and code of conduct for Agency employees.

2. One of the actions directed was to incorporate in the Agency regulations and make applicable to all employees those instructions that had been issued by the Office of Logistics (OL) to its procurement and contracting personnel governing their relationships and conduct with Agency contractors. It is my understanding that OL worked with [redacted] of your staff on this matter and a draft of the regulation [redacted] is in coordination within your Office. In light of the past interest shown in this area and the recognized need to have a definitive guideline which Agency personnel can follow, I believe we should get this regulation published as soon as practical and would appreciate your personal interest in this matter. STATINTL

/s/ Jack
